Waste Handling Equipment News (WHEN)	www.wastehandling.com	WHEN (Waste Handling Equipment News) addresses the equipment needs of owners & operating managers involved in the recycling of construction demolition waste, scrap metals, asphalt/concrete and organic solid waste (wood waste & composting). <i>WHEN</i> is mailed to subscribers in the United States thru two Editions (East & West) on a monthly basis.
WeCare Organics	www.wecareorganics.com	WeCare Organics , LLC (WCO) is an industry leader for the beneficial-reuse of recyclable organic residuals. Specializing in project development, manufacturing operations, facility management and final product marketing of various residual-based soil amendments.

**US EPA Resource
Conservation
Challenge**

www.epa.gov/epawaste/rcc

The US EPA **Resource Conservation Challenge** is a national effort to conserve natural resources and energy by managing materials more efficiently. The goals of the challenge are to: prevent pollution and promote reuse and recycling, reduce priority and toxic chemicals in products and waste, and conserve energy and materials.
